

ORCHARD HILLS SCHOOL

July, 2017

Dear Parent/Guardian:

One or more of the children in our school has an allergy to peanuts and/or tree nuts. This allergy can be fatal. We ask that you assist us in providing this/these student(s) with a safe school environment.

This is how you can help:

- *Limit sending peanuts, tree nuts or items containing peanuts/tree nuts to school as much as possible. This includes containers that could have previously contained nuts or peanut butter in them.*
- *Talk to the teacher before sending food to school for parties.*
- *If you child eats peanut butter before school, please make sure they wash their hands before coming to school.*
- *There is a special table for children who have food allergies. Peanut butter sandwiches and nuts will not be allowed at this table. Students who sit at this table are subject to have their lunches scanned by campus supervision.*

Thank you for your help.

Respectfully,

Cindy Agopian
Principal
