TUSD Publishes Fall 2006 Measure G Bond Bulletin

The Tustin Unified School District has published the Fall 2006 Measure G Bond Bulletin, which will be mailed this week to all residents within the School Facilities Improvement District.

Measure G is Tustin Unified's \$80 million bond, passed in November 2002 by 67 percent of voters, to repair and renovate the 20 oldest schools in the District. The newsletter provides an update on school improvements made with the bond money.

The publication will also be available at school sites, District Administration Center, Tustin Chamber of Commerce and Tustin Library, and posted on the Measure G Website.

For more information, call the TUSD Communications Office at (714) 730-7339.
