THS Science Center Dedication and Open House Scheduled for November 2

The Tustin Unified School District will hold a dedication and community open house for Tustin High School's new state-of-the-art Science Center on Wednesday, November 2, at 5:30 p.m.

The two-story facility is approximately 48,000 sq. ft. and houses 14 classrooms. The design features biology, chemistry, and physics labs; earth science and physical science classrooms, as well as restrooms, storage and prep rooms. The project broke ground in April of 2010 and the building opened its doors to students this fall.

"We are very excited to enhance state-of-the-art science education at Tustin High," Principal Jonathan Blackmore said.

The science center was designed by NTD Architecture and built by Balfour Beatty Construction. It is located toward the northwest corner of the campus adjacent to the tennis courts and Northrup Stadium.

The total cost of the project was approximately \$12 million, which was funded through the Measure G campus modernization program. Measure G was passed in 2002 by the voters to repair and renovate the 20 oldest schools in the Tustin school district.

For more information, call Tustin High at (714) 730-7422 or the TUSD Communications Office at (714) 730-7339.
