TUSD Holds Groundbreaking Ceremony for New Activity Center at Currie Middle School

The Tustin Unified School District will hold a groundbreaking ceremony for the new Activity Center at Currie Middle School, 1402 Sycamore Ave., on Thursday, January 12 at 10 a.m. The event is open to the public.

The new Activity Center is approximately 13,000 square feet and will be located adjacent to the track and blacktop area. It will include a lobby, gymnasium/multipurpose area, sports flooring, retractable bleachers, storage space, restrooms, performance area, lighting and two adjoining classrooms.

The project has been designed to provide optimal community access and close proximity to existing locker room facilities, and will be situated in an area that calls for minimal disruption to heavily used recreational areas on campus.

The new Activity Center was designed by NTD Architecture and will be built by Balfour Beatty Construction. It is scheduled to be completed about a year from its start date.

The project will cost approximately \$6.5 million and is being funded through the Measure L campus modernization program.

Construction work is underway on the new Activity Centers at Columbus Tustin and Hewes middle schools, and the District will be break ground on the new Activity Center at C.E. Utt Middle School in February.

For more information, call the TUSD Communications Office at (714) 730-7339.
