

Article 21 - Safety Committee

- 21.1 The District shall create a Safety Committee with balanced classified and District representation. The Committee shall include at least two (2) members appointed by the Association. This Committee shall review health, safety, sanitation and working conditions.

The Committee shall meet no less than quarterly to review health, safety, sanitation, and working conditions and make appropriate recommendations for improvement to the District. The Committee may be convened in an emergency to review matters of immediate concern.
