TUSTIN UNIFIED SCHOOL DISTRICT SPECIAL EDUCATION LOCAL PLAN AREA

Notice to Parent/Guardian/Surrogate Notice of Procedural Safeguards

This notice is provided to you as parents, legal guardians, surrogate parents or court appointed educational rights holder, because your child is receiving special education services or has been referred for possible placement in special education. This information is your Notice of Procedural Safeguards (Notice) as required under the Individuals with Disabilities Education Act (IDEA). The IDEA is a federal law that requires school districts to provide a "free appropriate public education" (FAPE) to eligible children with disabilities, as defined further below. This Notice will also be provided to students who are entitled to these rights at age eighteen (18). The purpose of this Notice is to explain to you your rights as a parent of a child with disabilities under federal and state laws. In California, special education is provided to disabled students between birth and the student's twenty-second (22nd) birthday. Federal and state laws protect you and your child throughout the procedures for evaluation and identification of special education placement and services. Parents of children with disabilities have the right to participate in the individualized education program (IEP) process, including development of the IEP, and be informed of the availability of FAPE and of all available alternate programs, including public and nonpublic programs.

A copy of this Notice will be given to you only one time a school year; except that a copy must also be given to you upon (1) initial referral or your request for evaluation; (2) upon the receipt of the first filing of a state complaint or due process complaint in a school year; (3) when a decision is made to make a disciplinary change of placement; or (4) upon your request. You have a right to receive this Notice in your primary/native language or other mode of communication, unless to do so is clearly not feasible. This Notice may also be translated orally to you if your primary/native language or other mode of communication is not a written language. The definitions below will help you understand the Notice of rights provided herein.

(20 U.S.C. section 1415(d); 34 C.F.R. sections 300.29 and 300.504; Education Code sections 56021.1(a), 56301(d)(2), 56321(b), and 56506(a).)

DEFINITIONS

Children With Disabilities also referred to as individuals with exceptional needs is defined by federal and state law as including children with intellectual disabilities, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), emotional disturbance, orthopedic impairments, autism, traumatic brain injury, other health impairments, specific learning disabilities, deaf-blindness, or multiple disabilities; and who by reason thereof, need special education and related services.

(20 U.S.C. section 1402(3); 34 C.F.R. section 300.8; Education Code section 56026; 5 California Code of Regulations (CCR) section 3030.)

Evaluation means the assessment of your child using various tests and measures in accordance with state and federal laws to determine whether your child has a disability and the nature and extent of special education and related services needed by your child for his or her educational benefit. The assessment tools are individually selected for your child and are administered by trained and knowledgeable professionals employed or contracted by the school district. These tests do not include the basic tests given to all children in the school setting.

(34 C.F.R. sections 300.15, 300.304 – 300.311; Education Code sections 56302.5 and 56320.)

Individualized Education Program (IEP) is defined as a written document developed by your child's IEP team that includes at least all of the following: (1) present levels of academic achievement and functional performance; (2) measurable annual goals; (3) a description of how the child's progress toward meeting the annual goals will be measured and when periodic reports on progress the child is making toward

1 meeting the annual goals will be provided; (4) a statement of the special education and related services
2 and supplementary aids and services to be provided to the child; (5) an explanation of the extent to which
3 the child will not participate with non-disabled children in the general education programs; (6) a statement
4 of any individual appropriate accommodations that are necessary to measure the academic achievement
5 and functional performance of the child on state and district wide assessments; and (7) the projected date
6 for initiation and the anticipated duration, frequency and location of the programs, services and
7 modifications included in the IEP.
8 (20 U.S.C. section 1414(d); 34 C.F.R. sections 300.22, 300.320-300.324; Education Code section
9 56345.)

10
11 **Free Appropriate Public Education (FAPE)** is defined as special education and related services that:
12 (1) are provided at public expense, under public supervision and direction, and without charge to you; (2)
13 meet the standards of the California Department of Education (CDE); (3) are provided in conformity with a
14 written IEP developed for your child to confer an educational benefit; and (4) are provided in an
15 appropriate preschool, elementary or secondary school program of the State, or in a nonpublic school if
16 there is no appropriate program available in a school district.
17 (20 U.S.C. section 1402(9); 34 C.F.R. section 300.17; Education Code section 56040.)

18
19 **Least Restrictive Environment (LRE)** means that to the maximum extent appropriate, children with
20 disabilities will be educated with children who are not disabled, and that special classes, separate
21 schooling, or other removal of children with disabilities from the regular education environment will occur
22 only when the nature or severity of the disability is such that education in regular classes with the use of
23 supplementary aids and services cannot be achieved satisfactorily.
24 (20 U.S.C. section 1412(a)(5); 34 C.F.R. section 300.114; Education Code section 56040.1.)

25
26 **Related Services** means transportation and such developmental, corrective and supportive services that
27 may be required to assist a child with a disability to benefit from special education, including the early
28 identification and assessment of disabling conditions. Related services may also include:

- 29
- 30 1. Speech-language pathology and audiology services.
- 31 2. Interpreting services.
- 32 3. Psychological services.
- 33 4. Physical and occupational therapy.
- 34 5. Recreation, including therapeutic recreation.
- 35 6. Counseling services, including rehabilitation counseling.
- 36 7. Orientation and mobility services.
- 37 8. School health services and school nurse services.
- 38 9. Medical services for diagnostic or evaluation purposes only.
- 39 10. Social work services.
- 40 11. Parent counseling and training.

41 (20 U.S.C. section 1402(26); 34 C.F.R. section 300.34; Education Code section 56363.)

42
43 **Special Education** means specially designed instruction, at no cost to parents, to meet the unique needs
44 of a child with a disability, including instruction conducted in the classroom, in the home, in hospitals and
45 institutions, and in other settings, and instruction in physical education.
46 (20 U.S.C. section 1402(29); 34 C.F.R. section 300.39; Education Code section 56031.)

47 **CONFIDENTIALITY AND ACCESS TO EDUCATIONAL RECORDS**

48
49 All parents of a child enrolled in the school district have the right to inspect their child's educational
50 records under the federal Family Educational Rights and Privacy Act (FERPA), and the California
51 Education Code. Under the federal and state laws, parents of a child with disabilities (including
52 noncustodial parents whose rights have not been limited) are presumed to and have the right to inspect
53 and review all educational records regarding their child unless the school district has been advised that
54 the parent does not have the authority to do so under applicable state laws. This includes the right to
55 inspect and review all educational records with respect to the identification, evaluation, educational

1 placement and the provision of a FAPE, as well as to receive an explanation and interpretation of the
2 records without unnecessary delay, including prior to a meeting regarding your child's IEP or before a
3 resolution session or due process hearing. Under California statutes, parents have the right to review
4 and to receive copies of educational records. You also have the right to have a representative inspect
5 and review the records in accordance with FERPA. These rights transfer to a pupil upon their eighteenth
6 (18th) birthday unless the pupil has had a conservator appointed by a court to assume the educational
7 rights of the pupil.

8
9 Educational records are those records that are directly related to your child and maintained by the school
10 district, or an agency, or institution acting for the school district that collects, maintains, or uses personally
11 identifiable information, or from which information is obtained. Both federal and state laws further define
12 an educational record or pupil record as any item of information directly related to an identifiable pupil,
13 other than directory information, which is maintained by a school district, whether recorded by
14 handwriting, print, computer media, video or audio tape, film, microfilm, microfiche or by other means. If
15 records contain information about more than one child, you have access only to that portion of the record
16 pertaining to your child. The school district must keep a record of parties obtaining access to educational
17 records collected, maintained, or used under the IDEA, other than school district employees in
18 accordance with FERPA.

19
20 The school district must protect the confidentiality of personally identifiable information at collection,
21 storage, disclosure and destruction stages. All persons collecting or using personally identifiable
22 information must receive training or instruction regarding the state's policies and procedures under the
23 IDEA and FERPA. Each school district must maintain, for public inspection, a current listing of the names
24 and positions of those employees who may have access to personally identifiable information.

25
26 The school district must inform you when personally identifiable information collected, maintained or used
27 under the IDEA is no longer needed to provide educational services to your child. Upon receiving notice
28 that the records are no longer necessary to the school district, you may request destruction of the
29 records, which will take place either by physical destruction or by removing personal identifiers from the
30 records so that the information is no longer personally identifiable. However, the school district is
31 obligated to keep a permanent record for each child.

32
33 Personally identifiable information may include: (1) the name of the child, the child's parent or family
34 member; (2) the address of the child; (3) a personal identifier such as the child's social security number,
35 student number, court file number, or biometric record; (4) other indirect identifiers such as the child's
36 date of birth, place of birth and mother's maiden name; (5) a list of personal characteristics or other
37 information that would make it possible to identify the child with a reasonable certainty. Parental consent
38 must be obtained before personally identifiable information is disclosed to parties other than school
39 district employees and in accordance with FERPA.

40
41 The custodian of records at each school site is the principal of the school. The district custodian of
42 records is the Director of Student Services. Pupil records may be kept at the school site or the district
43 office, but a written request for records at either site will be treated as a request for records from all sites.
44 The custodian of records will provide you with a list of the types and locations of pupil records (if
45 requested). A request for a copy of your child's special education records may be made to the District's
46 Director of Special Education.

47
48 A review and/or copies of educational records will be provided to the parent within five (5) business days
49 after the request is made by the parent, either orally or in writing. A fee for copies, but not the cost to
50 search and retrieve, is determined by local policy and will be charged unless charging the fee would
51 effectively prevent the parent from exercising the right to receive the copies. Once a complete copy of
52 the records has been provided, a fee will be charged for additional copies of the same records.

53
54 If you believe that information in the education records collected, maintained or used by the school district
55 is inaccurate, misleading or violates the privacy or other rights of the child, you may request in writing that

1 the school district amend the information. If the school district agrees with your request, the record will be
2 amended and you will be informed within a reasonable time after receipt of the request. Should the
3 school district refuse to amend the information as requested, the school district will notify you of the right
4 to a hearing to determine whether the challenged information is inaccurate, misleading, or otherwise in
5 violation of the privacy or other rights of your child. If you request a hearing, the school district will
6 provide a hearing, within a reasonable time, which must be conducted according to the procedures for
7 such hearings under FERPA.

8
9 If as a result of the hearing the school district decides the record will not be amended, you have a right to
10 provide what you believe is a corrective written statement, which will be permanently attached to the
11 contested record and also provided if the contested record is disclosed to any party. Additional
12 information regarding your right to access and challenge educational records is available in the District's
13 Annual Notice of Parent Student Rights and Responsibilities.
14 (20 U.S.C. section 1232g; 34 C.F.R. sections 99.1-99.67; 34 C.F.R. sections 300.610-300.625, 300.613;
15 Education Code sections 48980, 49060-49079; Education Code sections 56041.5, 56043(n) and 56504; 5
16 CCR section 432(b)(1).)

17 **PRIOR WRITTEN NOTICE**

18
19 The IDEA requires school districts to provide prior written notice to you as the parent of a child with
20 disabilities when the school district proposes or refuses to initiate or change the identification, evaluation
21 or educational placement of your child or the provision of a FAPE to your child or if you revoke consent in
22 writing for the continued provision of special education and related services. The notice will be provided
23 in your native language or other mode of communication you use, unless it is clearly not feasible to do so,
24 and must be provided to you within a reasonable time.

25
26 The prior written notice must include:

- 27 1. A description of the action proposed or refused by the school district.
- 28 2. An explanation of why the school district proposes or refuses to take the action.
- 29 3. A description of each evaluation procedure, assessment, record, or report the school
30 district used as a basis for the proposed or refused action.
- 31 4. A description of other options that the IEP team considered and the reasons why those
32 options were rejected.
- 33 5. A description of other factors that are relevant to the school district's proposal or refusal.
- 34 6. A statement that the parents of a child with a disability have protection under the
35 procedural safeguards of the IDEA, and if this notice is not an initial referral for
36 evaluation, the means by which a copy of a description of the procedural safeguards can
37 be obtained.
- 38 7. Sources for parents to contact to obtain assistance in understanding the provisions of this
39 part.

40 (20 U.S.C. section 1415(c); 34 C.F.R. sections 300.503 and 300.300(b)(4); Education Code section
41 56500.4.)

42 **INFORMED PARENTAL CONSENT**

43
44 The IDEA requires that school districts obtain informed consent from you before the commencement of
45 an initial evaluation of your child to determine if your child qualifies as a child with disabilities. Informed
46 consent means you have been fully informed in your native language, or other mode of communication, of
47 all information about the action for which you are giving consent and that you understand and agree in
48 writing to the carrying out of the activity for which consent is sought, such as an evaluation or educational
49 placement decision for your child. Your consent is voluntary and may be withdrawn at any time. Should
50 you withdraw/revoke consent the revocation is not retroactive, it will not negate an action that has
51 occurred after the consent was given and before the consent was revoked.

52
53 Your consent for the initial evaluation does not imply or grant consent for placement and receipt of special
54 education and related services. The school district will request your consent for special education and
55 related services separately and at a later date. The school district will also obtain your informed consent

1 for reevaluations of your child and will not conduct a reevaluation unless you fail to respond to requests
2 for your consent.

3
4 If you do not provide consent for an initial assessment or fail to respond to a request to provide the
5 consent, the school district may pursue the initial assessment by using due process procedures.
6

7 If you refuse to consent to the initiation of special education and related services, the school district must
8 not provide special education and related services and shall not seek to provide services through due
9 process procedures.
10

11 If at any time after the initial provision of special education and related services, you revoke consent in
12 writing for the continued provision of special education and related services after having consented to
13 those services in the past, the school district must provide you prior written notice before ceasing the
14 provision of special education and related services to your child and shall not seek to provide services
15 through due process procedures. If you submit a written revocation of consent after the initial provision of
16 special education and related services to your child, the school district is not required to amend the
17 education records of your child to remove any reference of your child's receipt of special education and
18 services.
19

20 If you consent in writing to the receipt of special education and related services for your child but do not
21 consent to all of the components of the IEP, those components of the program to which you have
22 consented must be implemented so as not to delay providing instruction and services. If the school district
23 determines that the proposed special education program component to which you do not consent is
24 necessary to provide a free appropriate public education to your child, the school district must file a
25 request for a due process hearing. If a due process hearing is held, the hearing decision shall be final
26 and binding, unless appealed within 90 days from the date of the decision.
27

28 In the case of reevaluations, the school district must document reasonable measures to obtain your
29 consent. If you fail to respond, the school district may proceed with the reevaluation without your
30 consent.

31 (20 U.S.C. sections 1414(a)(1)(D), 1414(c) and 1415; 34 C.F.R. sections 300.9 and 300.300, 300.514
32 and 300.516; Education Code sections 56021.1, 56321(c) and (d), 56346, 56381(f) and 56506(e).)
33

34 When a parent cannot be identified and the school district cannot locate the whereabouts of a parent to
35 obtain consent, the school district must ensure that an individual is assigned to act as a surrogate for the
36 parents of a child with a disability. A surrogate parent may also be appointed for unaccompanied
37 homeless youth or a child who is a dependent or ward and an educational representative has not been
38 appointed by the Court.

39 (20 U.S.C. section 1415(b)(2); 34 C.F.R. section 300.519; Education Code section 56050; CA Rules of
40 Court Rule 5.650.)
41

42 **PROTECTION IN EVALUATION PROCEDURES**

43 Federal law refers to "evaluation" and California law refers to "assessment". Therefore, these words may
44 be used interchangeably by employees of the school district and in this Notice. The school district must
45 provide you with a written assessment plan or prior written notice within fifteen (15) days after a referral
46 for special education has been received, including your written request for evaluation. You will have a
47 minimum of fifteen (15) days in which to review the assessment plan and to provide consent to the school
48 district to conduct the written assessment. The proposed assessment plan will be provided to you in your
49 native language or other mode of communication used, unless to do so is clearly not feasible, and will
50 include the following: the types of assessments to be conducted, notification that no education program
51 will be developed from the assessment without your consent, description of any recent assessments
52 conducted, including any available independent assessments and any assessment information you want
53 considered, and information indicating your child's primary language and your child's proficiency in his/her
54 primary language. You may request assessment in additional areas of suspected disability. Thereafter,
55 the school district has sixty (60) days after receipt of your written consent to complete the assessment

1 and to develop an IEP to determine the educational needs of your child. However, this timeline is
2 extended by periods of school holiday or vacation, if you refuse to make your child available for
3 assessment, or if your child transfers to another school district and you and the receiving school district
4 agree to a specific time when the assessment will be completed.
5

6 The IDEA states that in conducting the evaluation the school district will:
7

- 8 1. Use a variety of assessment tools and strategies to gather relevant functional,
9 developmental and academic information, including information provided by the parent,
10 that may assist in determining whether the child is a child with a disability and the content
11 of the child's IEP, including information related to enabling the child to be involved in and
12 progress in the general curriculum or, for preschool children, to participate in appropriate
13 activities;
- 14 2. Not use any single procedure as the sole criterion for determining whether a child is a
15 child with a disability or determining an appropriate educational program for the child; and
- 16 3. Use technically sound instruments that may assess the relative contribution
17 of cognitive and behavioral factors, in addition to physical or developmental factors.
18

19 The school district will also make sure that tests and other evaluation materials used to assess your child
20 are selected and administered so as not to be racially, culturally or sexually discriminatory and are
21 provided and administered in the child's native language or other mode of communication, unless it is
22 clearly not feasible to do so. Any standardized tests that are given to the child will have been validated
23 for the specific purpose for which they are used, administered by trained and knowledgeable personnel,
24 and administered in accordance with any instructions provided by the producer of such tests. Your child
25 will be assessed in all areas of suspected disability and the school district will use assessment tools and
26 strategies that provide relevant information that will directly assist the school district in determining the
27 educational needs of your child. Upon completion of the administration of evaluation materials, the
28 determination of whether the child is a child with a disability will be made by you and qualified
29 professionals comprising the IEP team. A copy of the evaluation report and documentation of the
30 determination of eligibility will be given to you.
31

32 In making a determination of eligibility, your child will not be determined to be a child with a disability due
33 to a lack of instruction in reading or math or as a result of limited English proficiency.
34

35 As part of an initial evaluation (if appropriate) and as part of any reevaluation under this section, the IEP
36 Team and other qualified professionals, as appropriate, will:
37

- 38 1. Review existing evaluation data on the child, including evaluations and information
39 provided by you, current classroom-based assessments and observations, and teacher
40 observation; and
- 41 2. On the basis of that review, and input from you, identify what additional data, if any, are
42 needed to determine:
 - 43 a. Whether the child has a particular disability, or, in case of reevaluation of a child,
44 whether the child continues to have such a disability and such educational
45 needs;
 - 46 b. The present levels of performance and related developmental needs of the child;
 - 47 c. Whether the child needs special education and related services, or in the case of
48 a reevaluation of a child, whether the child continues to need special education
49 and related services; and
 - 50 d. Whether any additions or modifications to the special education and related
51 services are needed to enable the child to meet the measurable annual goals set
52 out in the IEP of the child and to participate, as appropriate, in the general
53 curriculum.
54
55

1 Generally, a reevaluation is required every three (3) years. However, if the IEP Team determines that no
2 additional data is needed to determine whether your child continues to be a child with a disability and to
3 determine the child's educational needs the school district will notify you as to the reasons the school
4 district believes a reevaluation is not necessary. After receiving this notice, you may request a
5 reevaluation of your child. If the school district does not receive a reevaluation request from you, the
6 school district will not conduct a reevaluation of your child.

7
8 Before determining that your child is no longer a child with a disability, the school district must conduct an
9 assessment in accordance with the procedures discussed above.
10 (20 U.S.C. sections 1414, 1415; 34 C.F.R. sections 300.301 – 300.306; Education Code sections 56320,
11 56321, 56329, and 56381; 5 CCR section 3022.)

12 **INDEPENDENT EDUCATIONAL EVALUATION**

13
14 After the school district has completed its evaluation, if you disagree with the school district's evaluation
15 of your child and notify the school district of your disagreement, you have the right to request an
16 independent educational evaluation at school district expense. Upon your request for an independent
17 educational evaluation, the school district will provide you with information about where to obtain an
18 independent educational evaluation and the district's criteria applicable for independent educational
19 evaluations. A parent is entitled to only one (1) independent educational evaluation at public expense
20 each time the district conducts an evaluation with which the parent disagrees. However, if the school
21 district disagrees that an independent educational evaluation is necessary, the school district must
22 request a hearing before a due process hearing officer to dispute your request for an independent
23 educational evaluation and to show that the school district's assessment is appropriate. If the school
24 district prevails, you still have the right to an independent evaluation but not at public expense. If you
25 choose to obtain an independent educational evaluation at your own expense, the results of the
26 assessment must be considered by the district. The independent educational evaluation must comply
27 with all of the requirements that apply to school district evaluations.

28
29 If the school district observes your child in his or her classroom during an assessment, or if the school
30 district procedures provide for in-class observations, an equivalent opportunity must be provided for any
31 independent educational evaluation in the current and any proposed educational placement.

32
33 If you unilaterally place your child in a nonpublic school and you propose the placement in the nonpublic
34 school to be publicly financed, the school district must be given the opportunity to first observe the
35 proposed placement and your child in the proposed placement.
36 (20 U.S.C. section 1415(b)(1); 34 C.F.R. section 300.502; Education Code section 56329.)

37 **IEP MEETINGS**

38
39 As the parent of a special education student, you have the right to be a part of the IEP Team and
40 participate in any meeting regarding the identification, assessment and educational placement of your
41 child. The term IEP or Individualized Education Program means a written document for each child with a
42 disability that is developed, reviewed and revised in accordance with federal and state law. The IEP
43 includes the child's present levels of academic achievement and functional performance and must
44 consider your concerns as a parent for improving the education of your child. As a parent, you have the
45 right to be a member of any group that makes decisions with respect to the educational placement of your
46 child. You also have the right to bring individuals who have knowledge or special expertise regarding your
47 child to an IEP meeting. The school district will provide you with a copy of the IEP in your primary
48 language upon request. If you are a parent of a child age three through five years, the individualized
49 family service plan (IFSP) may serve as the IEP if agreed to by the parent and the school district.
50 Federal and state law requires that the first IEP to be in effect beginning at age sixteen include a
51 statement of the transition service needs of the child and that the IEP be updated annually thereafter.
52 Beginning at age sixteen or younger, if determined appropriate by the IEP Team, appropriate measurable
53 postsecondary goals related to training, education, employment, and where appropriate, independent
54 living skills, a statement of needed transition services for the child, including, when appropriate, a
55 statement of the interagency responsibilities or linkages between the agencies is required. Beginning at

1 least one year before the child reaches age eighteen (18), a statement must be included in the IEP that
2 the child has been informed of his or her rights that will transfer to the child on reaching the age of
3 majority. Under California law, when a child turns age eighteen (18), he or she is considered an adult and
4 unless the parent obtains a conservatorship or guardianship over the child through court proceedings, the
5 child may make decisions regarding his or her education.
6

7 In developing an IEP for your child, the IEP Team must include positive behavioral intervention strategies
8 and supports in cases where the child's behavior prevents the child from learning and consider, when
9 appropriate, strategies, including positive behavioral intervention strategies and supports to address the
10 child's behavior. The regular education teacher of your child, as a member of the IEP Team, must to the
11 extent appropriate, participate in the development of the IEP of your child, including the determination of
12 appropriate, positive behavioral intervention strategies and the determination of supplementary agency
13 services, program modifications and support for the school personnel.
14

15 The IEP will be reviewed by the IEP Team at least annually in order to determine whether the annual
16 goals for your child are being achieved and revise the IEP as appropriate to: (1) address any lack of
17 anticipated progress toward the annual goals and in the general curriculum, where appropriate, (2) to
18 address the results of any reevaluation conducted, (3) to address information about your child provided
19 by you, and 4) to address your child's anticipated needs, if necessary. Your child will also receive report
20 cards in the same manner as regular education students. You and the school district may agree in writing
21 that the attendance of an IEP Team member is not necessary because the member's area of curriculum
22 or related service is not being modified or discussed at the meeting. In addition, if you and the school
23 district agree in writing to excuse a member of the IEP team from the IEP Team meeting, in whole or in
24 part, when the meeting involves a modification to or discussion of the member's area or the curriculum or
25 related service, the member must submit in writing to you and the IEP Team, input into the development
26 of the IEP prior to the meeting. Under state law, you have the right to electronically record IEP meetings
27 by audio tape if you give 24 hours notice to other members of the IEP Team. After the annual IEP
28 meeting for a school year, you and the school district may agree in writing not to convene an IEP meeting
29 to make changes to the annual IEP, and instead may develop a written document to amend or modify the
30 current IEP.

31 (20 U.S.C. section 1414(d); 34 C.F.R. sections 300.320-300.324; Education Code sections 56032, 56304,
32 56341, 56341.1, 56341.5, 56342.5 and 56345; 5 CCR section 3040.)
33

34 **PLACEMENT ("STAY-PUT") DURING THE PENDENCY OF** 35 **DUE PROCESS PROCEDURES**

36 As a parent of a child with disabilities, should you get involved in a disagreement with the school district
37 over the identification, evaluation or placement of your child and you file a request for a due process
38 hearing, your child will remain ("stay-put") in the current educational placement during the pendency of
39 the proceedings. Unless you and the school district agree to a change in placement, or the school district
40 obtains a court order or an order from a hearing officer, your child will remain in his or her current
41 educational placement during the pendency of the proceedings. For initial admission to school, your child
42 will be placed in a public school program, with parental consent, until the proceedings have been
43 completed. There are exceptions to this general rule which allow the school district to place your child in
44 an alternative educational setting for a limited period of time. These exceptions will be discussed in the
45 next section on interim alternative educational settings.

46 (20 U.S.C. section 1415(j); 34 C.F.R. section 300.518; Education Code section 56505(d).)
47
48

49 **INTERIM ALTERNATIVE EDUCATIONAL SETTINGS** 50 **DISCIPLINE PROCEDURES**

51 School personnel may change the placement of your child if he or she violates a code of student conduct
52 to (1) an appropriate interim alternative educational setting; (2) another educational setting, or (3)
53 suspend your child for not more than ten (10) consecutive school days (to the extent such alternatives
54 would be applied to children without disabilities) and for additional removals of not more than ten (10)
55 consecutive school days in that same school year for separate incidents of misconduct. If school

1 personnel seek a change in placement that exceeds more than ten (10) school days in the same school
2 year, school personnel must determine if the behavior that gave rise to the violation of the code of student
3 conduct is a manifestation of your child's disability. If a determination is made that the behavior is not a
4 manifestation of your child's disability, school personnel may discipline your child under the same
5 procedures applicable to children without disabilities.
6

7 In order to determine if the behavior that gave rise to the violation of the code of student conduct is a
8 manifestation of your child's disability, the school district, you and relevant members of the IEP Team
9 must review all relevant information in your child's file, including the IEP, any teacher observations, and
10 any relevant information provided by you to determine if the conduct in question was caused by, or had a
11 direct and substantial relationship to your child's disability. This meeting must take place within ten (10)
12 school days of any decision to take disciplinary action. If the IEP Team determines that the conduct is a
13 manifestation of your child's disability, the IEP Team must either conduct a functional behavioral
14 assessment, and implement a behavioral intervention plan for your child, or review and modify as
15 necessary the existing behavioral intervention plan.
16

17 School personnel may also place your child in an interim alternative educational setting for up to forty-
18 five (45) school days without regard to whether the behavior is determined to be a manifestation of your
19 child's disability, in cases where: (1) your child carries or possesses a weapon to or at school, on school
20 premises, or to or at a school function or activity; (2) your child knowingly possesses or uses illegal drugs,
21 or sells or solicits the sale of a controlled substance while at school, on school premises, or a school
22 function or activity; or (3) your child inflicts serious bodily injury upon another person while at school, on
23 school premises, or at a school function or activity. The IEP team determines the interim alternative
24 education setting for services.
25

26 After a child with a disability has been removed from his or her current placement for ten (10) school days
27 in the same school year, during any subsequent days of removal the school district must provide services
28 to enable the child to continue to participate in the general education curriculum, although in another
29 setting, and to progress toward meeting the IEP goals. If appropriate, the child may receive a functional
30 behavioral assessment and behavior intervention services and modifications designed to address the
31 behavior violation so that it does not recur.
32

33 No later than the date on which the decision to take disciplinary action against your child is made, the
34 school district must notify you of that decision and notify you of your procedural safeguards. If you
35 disagree with any decision regarding placement, or the manifestation determination of your child, you
36 may request an expedited due process hearing which must occur within twenty (20) school days of the
37 date of the hearing request. During the pendency of the due process hearing, your child will remain in the
38 interim alternative education setting pending the decision of the hearing officer or for forty-five (45) school
39 days, whichever occurs first, unless you and the school district agree otherwise. If the school district
40 believes it is dangerous for your child or others for your child to return to the current educational
41 placement, the school district may request an expedited hearing.
42

43 A hearing officer may order a change in the placement of your child to an appropriate interim alternative
44 educational setting for not more than forty-five (45) days, if the hearing officer determines that maintaining
45 your child in his or her current placement is substantially likely to result in injury to your child or to others.
46 (20 U.S.C. section 1415(k); 34 C.F.R section 300.530; Education Code section 48915.5.)
47
48

49 **CHILDREN WITH DISABILITIES**
50 **ENROLLED BY THEIR PARENTS IN PRIVATE SCHOOLS**

51 A school district's obligation to children with disabilities enrolled in private schools is limited. Under the
52 IDEA *"no parentally-placed private school child with a disability has an individual right to receive some or*
53 *all of the special education and related services that the child would receive if enrolled in a public school."*
54 School districts must locate, identify and assess all private school children with disabilities, including
55 religiously affiliated school age children, who have disabilities and are in need of special education and

1 related services, referred to as “child find”. The school district in which the private school is located, also
2 referred to as the “District of Location” is responsible for conducting child find activities for children
3 enrolled by their parents in private schools. If the District of Location is not the same school district in
4 which the parents of the private school student reside, then the District of Location may contract with the
5 school district of residence to assess the child.
6

7 Children with disabilities enrolled in private school may receive equitable special education services as
8 determined through consultation with private schools and parents. In order to receive such equitable
9 services, a “Service Plan” must be developed for the private school student and consented to by the
10 parents. The school district in which the private school is located, the District of Location, is responsible
11 for developing and implementing the Service Plan.
12

13 A parent of a child enrolled by that parent in a private school has the right to file a due process complaint
14 only regarding the school district’s child find activities. A due process complaint must be filed with the
15 school district in which the private school is located, the District of Location, and the California
16 Department of Education (CDE). However, because there is no individual right to services for children
17 enrolled by their parents in private school, any complaints regarding a Service Plan can only be filed in
18 accordance with the CDE’s compliance complaint procedures.
19 (20 U.S.C. section 1412(a)(10)(A); 34 C.F.R. section 300.130–300.144; Education Code sections 56170–
20 56177.)
21

22 **UNILATERAL PLACEMENT BY PARENTS IN PRIVATE SCHOOL**

23 If you decide to unilaterally enroll your child in a private school after the school district made a free
24 appropriate public education available to your child, the school district is not required to pay for the cost of
25 your child’s education. In order to obtain reimbursement for the cost of the private school from the school
26 district, including special education and related services, you must first attempt to obtain the consent of
27 the school district, and establish that the school district does not have an appropriate program for your
28 child. Reimbursement may be denied or reduced if: 1) at the most recent IEP meeting that you attended
29 prior to removal of your child from the public school, you did not inform the IEP Team that you were
30 rejecting the placement proposed by the school district to provide a free appropriate public education to
31 your child, including a statement of your concerns and your intent to enroll your child in a private school at
32 public expense; or 2) at least 10 business days prior to the removal of your child from the public school,
33 you did not give written notice to the school district of your concerns regarding the school district’s
34 proposed placement and your intent to enroll your child in a private school at public expense.
35

36 If the school district notifies you prior to the removal of your child from the public school that the school
37 district wishes to evaluate your child and indicates the purpose of the evaluation, you should make your
38 child available for the evaluation. If you have not complied with these requirements, a court or hearing
39 officer may find that you acted unreasonably in unilaterally removing your child from the public school and
40 in placing your child in a private school. The court or hearing officer may deny you reimbursement unless
41 you can show one or more of the following: 1) you are illiterate and cannot write in English, or 2) the
42 school district’s placement would result in physical or serious emotional harm to your child.
43 (20 U.S.C. section 1412(a)(10)(C); 34 C.F.R. section 300.148; Education Code sections 56175-56177.)
44

45 **OPPORTUNITY TO PRESENT AND RESOLVE COMPLAINTS**

46 **A. STATE COMPLAINT PROCEDURES**

47 The IDEA grants parents an opportunity to present and resolve complaints with respect to any matter
48 relating to the identification, evaluation or educational placement of your child or the provision of a free
49 appropriate public education to your child. Written complaints may be filed with the school district or the
50 state or federal agencies at the addresses listed below. Compliance complaints must allege a violation
51 that occurred not more than one (1) year prior to the date the complaint is received. A copy of the written
52 complaint must also be provided to the school district serving the child at the same time it is filed with the
53 state agency. The school district, state or federal agency has sixty (60) days from the date of receipt of
54 the complaint to render a decision in the matter. For complaints filed with the school district, within fifteen
55

1 (15) days of receiving the school district's decision, you may appeal the school district's decision to the
2 California Department of Education (CDE). Complaints may also be filed directly with the CDE.
3 You may also avail yourself of the compliance complaint process to report an instance of discrimination,
4 harassment, intimidation or bullying. A complaint must be filed with the school district no later than six
5 months from the date the incident occurred, or the date you first obtained knowledge that the incident
6 occurred. The timelines for conducting and completing an investigation of the complaint and rendering a
7 decision are listed in the previous paragraph.

33
34 The school district encourages you to file your complaint with the school district. We will meet with you
35 and investigate your complaint in a timely manner and attempt to resolve any concerns. The school
36 district has established confidential procedures for the filing of complaints. A complaint form is available
37 from the school district.
38 (20 U.S.C. Section 1415(b)(6); 34 C.F.R. section 300.153; Education Code section 56500.2; 5 CCR
39 section 4600.)

40 41 **B. MEDIATION AND DUE PROCESS HEARING PROCEDURES**

42 The IDEA requires states to establish procedures for mediation and impartial due process hearings
43 regarding the identification, assessment, and educational placement of your child or the provision of a
44 FAPE. You or the school district may file a request for mediation-only or a due process hearing
45 complaint.

46
47 Your request for mediation-only or a due process hearing must include the name and address of the
48 child, date of birth, grade level and name of the school the child is attending, parent information, parties to
49 the mediation, a description of the nature of the problem, including facts relating to such problem, and a
50 proposed resolution of the problem. The CDE has developed model forms to assist you in filing a request
51 for mediation-only or a due process hearing. You may access these model forms at:

52 <http://www.dgs.ca.gov/oah/home/forms.aspx>

53
54 You must serve the mediation-only or due process hearing complaint on the school district and file a copy
55 with the Office of Administrative Hearings at the address listed below:

1 Office of Administrative Hearings
2 Attn: Special Education Division
3 2349 Gateway Oaks Drive, Suite 200
4 Sacramento, CA 95833-4231
5 Phone: (916) 263-0880
6 Fax: (916) 376-6319
7 SEFilings@dgs.ca.gov

8
9 In California, mediation is voluntary. You may request a due process hearing or mediation-only.
10 Mediation-only means you are asking for mediation without asking for a due process hearing. Mediation
11 is an informal proceeding conducted in a nonadversarial manner. If you request mediation-only you and
12 the school district will receive a notice that mediation has been scheduled, and the notice will contain the
13 time, date and location of the mediation as well as the name, address, and phone number of a
14 knowledgeable and impartial mediator assigned to the case. The mediation must be scheduled within 15
15 days of the Office of Administrative Hearing's receipt of the request. Attorneys cannot attend mediation-
16 only. However, you or the school district may be accompanied and advised by non-attorney
17 representatives. Statements made by you and the school district during mediation are confidential and
18 may not be used in a due process hearing or court action. Any agreement reached during mediation
19 must be in writing and signed by all parties. You may also ask the school district to resolve disputes
20 through alternative dispute resolution (ADR), which is also less adversarial than a due process hearing.
21 ADR and mediation are voluntary methods of resolving a dispute. If the dispute is not resolved during
22 mediation or through ADR, you may proceed to a due process hearing. Mediation or ADR are not
23 prerequisites to requesting a due process hearing.
24

25 A due process hearing is a formal proceeding where you and the school district are given the opportunity
26 to present witnesses, documentary evidence, and oral and written argument in support of your respective
27 positions on disputed special education issues. You may request a mediation conference at any point
28 during the due process hearing. A request for a due process hearing must be filed within (2) years from
29 the date you or the school district knew or should have known about the alleged action that forms the
30 basis of the due process hearing complaint. Upon receiving a request for a due process hearing, you and
31 the school district will receive a notice from the Office of Administrative Hearings with the time, date and
32 location of the due process hearing. If your primary language is other than English, or other mode of
33 communication, an interpreter will be provided for you at the hearing.
34

35 Prior to the opportunity for an impartial due process hearing, within fifteen (15) days of receiving your due
36 process hearing complaint, the school district is required to convene a mandatory resolution meeting with
37 you and the relevant members of the IEP Team who have specific knowledge of the facts raised in your
38 complaint, where you can discuss your complaint and the facts that form the basis of your complaint, and
39 the school district is provided the opportunity to resolve the complaint. The resolution meeting must
40 include a representative from the school district who has decision making authority on behalf of the
41 school district, but may not include an attorney for the school district unless the parent is also
42 accompanied by an attorney. Attorneys' fees may not be awarded relating to a resolution meeting.
43 Unless the school district agrees, you may not waive the mandatory resolution meeting. If resolution is
44 reached to resolve the complaint at the mandatory resolution meeting, the parties must sign a legally
45 binding agreement. If the school district has not resolved the complaint to your satisfaction within thirty
46 (30) days of the receipt of the complaint, the due process hearing may move forward and all applicable
47 timelines for a due process hearing shall commence.
48

49 The due process hearing is limited to those issues raised in your due process hearing complaint. An
50 impartial hearing officer presides over the due process hearing. You have the right to be accompanied
51 and advised by an attorney and by individuals with special knowledge or training related to the problems
52 of children with exceptional needs; the right to present evidence, written and oral arguments; the right to
53 confront, cross-examine and compel attendance of witnesses; the right to a written or electronic verbatim
54 record of the hearing; and the right to written findings of fact and decision.
55

1 At least ten (10) days prior to the hearing you and the school district must inform each other of the issues
2 to be decided at the hearing and the proposed resolution of those issues as well as whether the parties
3 will be represented by an attorney at the hearing. At least five (5) business days prior to the hearing you
4 and the school district must disclose all your witnesses and evidence you intend to introduce at the
5 hearing including evaluations completed to the other party, or the witnesses, evidence or evaluations
6 cannot be introduced as evidence at the hearing.
7

8 In general, a hearing officer's decision should be made on substantive grounds based on a determination
9 of whether your child received FAPE. The hearing officer must reach a final decision and mail a copy of
10 the written decision to you and the school district within forty-five (45) days of the receipt of the request
11 for a hearing by the Office of Administrative Hearings or State Superintendent of Public Instruction, unless
12 a continuance has been granted for good cause. The decision made in a due process hearing is final,
13 except that any party involved in the hearing may appeal the decision by filing a civil action with respect to
14 the findings and decision in the due process complaint.
15 (20 U.S.C. sections 1415(b)(7)(a)–1415(j); 34 C.F.R. sections 300.506–300.518; Education Code
16 sections 56500.3, 56502–56507; 5 CCR section 3082.)
17

18 **CIVIL ACTIONS**

19 Either you or the school district may appeal the hearing officer's decision by filing a civil action. This
20 appeal must be made within ninety (90) days after the date of the decision of the hearing officer. In a civil
21 action, the records and transcription of the administrative proceedings shall be filed with the court. The
22 court may hear additional evidence at the request of either party and must base its decision on the
23 preponderance of the evidence. The action may be filed in the United States District Court or in Orange
24 County Superior Court.
25 (20 U.S.C. section 1415(i); 34 C.F.R. sections 300.514, 300.516; Education Code section 56505(k).)
26
27

28 **ATTORNEYS' FEES**

29 The United States District Court or the Orange County Superior Court has the authority to award you
30 reasonable attorneys' fees if you are the prevailing party in a due process hearing or civil action; or to
31 award the school district reasonable attorneys' fees if your attorney files a complaint or subsequent cause
32 of action that is frivolous, unreasonable, or without foundation, or the complaint or subsequent action was
33 filed to harass, cause unnecessary delay, or to needlessly increase the cost of litigation. The fees
34 awarded are based on rates prevailing in the community in which the action or proceeding arose. No
35 attorneys' fees may be awarded to you following a written offer of settlement from the school district made
36 at least ten (10) days prior to hearing, if the court or hearing officer finds that the relief you ultimately
37 obtained is not more favorable than the written offer of settlement. However, attorneys' fees will not be
38 reduced if you were substantially justified in rejecting the settlement offer, or the school district
39 unreasonably prolonged the proceedings.

40 You may not be awarded attorneys' fees and related costs if you unreasonably prolonged the final
41 resolution of the controversy or the amount of the fees requested is unreasonable. In addition, attorneys'
42 fees or related costs may not be awarded for attorney time spent attending resolution meetings or IEP
43 Team meetings, unless the IEP team meeting is convened as a result of an administrative proceeding or
44 judicial action.
45 (20 U.S.C. section 1415(i)(3); 34 C.F.R. section 300.517; Education Code section 56507(b).)
46
47

48 **STATE SPECIAL SCHOOLS**

49 The State Special Schools operated by CDE provide services to students who are deaf, hard of hearing,
50 blind, visually impaired, or deaf-blind at each of its three facilities: the California Schools for the Deaf in
51 Fremont and Riverside and at the California School for the Blind in Fremont. Residential and day school
52 programs are offered to students from infancy to age 21 at both State Schools for the Deaf and from ages
53 five through 21 at the California School for the Blind. The State Special Schools also offer assessment
54 services and technical assistance. For more information about the State Special Schools, please visit the
55

1 California Department of Education Web site at <http://www.cde.ca.gov/sp/ss/> or ask for more information
2 from the members of your child's IEP team.
3 (Education Code section 56321.6.)
4
5

6 **NOTIFICATION OF RIGHTS REGARDING**
7 **USE OF PUBLIC BENEFITS OR INSURANCE**

8 This notice is provided to you as parents, legal guardians, surrogate parents or court appointed
9 educational rights holder, because your child is or may be receiving special education services under the
10 IDEA. The IDEA requires school districts to provide prior written notice of your rights and protections
11 when it seeks to use your child's public benefits (i.e., Medi-Cal) or insurance to pay for special education
12 and related services. This notice will be given to you before the school district seeks to use your child's
13 public benefits or insurance for the first time, and annually thereafter.
14

15 With your written consent, the school district may submit claims to your child's public benefits or
16 insurance program, such as the California Medi-Cal program.
17

18 The school district cannot require you to sign-up for or enroll in a public benefits or insurance program in
19 order for your child to receive FAPE under the IDEA. The school district cannot require you to pay out-of-
20 pocket expenses such as the payment of a deductible or co-pay. The school district cannot use your
21 child's benefits under a public benefits or insurance program if to do so would (1) decrease available life
22 time coverage or any other insured benefit; (2) cause you to pay for services that would otherwise be
23 covered by your public benefits or insurance program because your child also requires those services
24 outside of the school day; (3) increase premiums or lead to the discontinuation of your public benefits or
25 insurance; or (4) cause you to risk loss of eligibility for home and community based waivers based on
26 your total health-related expenditures.

27 (34 CFR Section 300.154(d)(1)(2)(i)-(v) and (e); Education Code section 56363.5.)
28

29 **You Have The Right To:**
30

- 31 • Voluntarily provide the school district with written consent to disclose educational records
32 containing your child's personally identifiable information such as IEPs or assessment reports to
33 Medi-Cal, or other public benefits or insurance programs for billing purposes.
34
- 35 • Withdraw your consent to the disclosure of your child's personally identifiable information to Medi-
36 Cal, or other public benefits or insurance programs **at any time** in accordance with your rights
37 under the Family Educational Rights and Privacy Act (FERPA; Title 20 of the United States Code,
38 Section 1232 (g), Title 34 Code of Federal Regulations Part 99) and the IDEA (Title 20 of the
39 United States Code, Section 1400), Title 34 Code of Federal Regulations Part 300).
40
- 41 • Refuse to provide consent to the disclosure of your child's personally identifiable information to
42 Medi-Cal, or other public benefits or insurance programs for billing purposes. Without your
43 consent the school district may not use your or your child's public benefits or insurance.
44
- 45 • Have your child continue to receive a FAPE **at no cost to you**, if you withdraw consent or refuse
46 to provide consent to disclose your child's personally identifiable information to Medi-Cal, or other
47 public benefits or insurance programs for billing purposes.
48

49 If you withdraw your consent or refuse to provide consent for the school district to use Medi-Cal or other
50 public benefits or insurance programs to pay for eligible special education and related services, the
51 school district must continue to ensure that all required special education and related services are
52 provided **at no cost to you**.
53
54
55
