A Special Message for Students and Parents

Courses in this catalog represent all possible offerings in the Tustin Unified School District. The courses are organized by UC/CSU A-G requirements. Consult with your high school guidance department for specific courses being offered at your site. Should you have questions or need additional information, please contact your high school guidance department.

The following course catalog is organized by the following “a-g”:

- a. History/Social Science – 2 years required
- b. English – 4 years required
- c. Mathematics – 3 years requires, 4 years recommended
- d. Laboratory Science – 2 years required, 3 years recommended
- e. Language Other than English – 2 years required, 3 years recommended
- f. Visual and Performance Arts (VPA) – 1 year required
- g. College-Preparatory Electives – 1 year required

-
- All other TUSD Courses

Guidance Program and Services

All counselors in the Tustin Unified School District are committed to implementing a comprehensive guidance program. Each student and parent can expect services as a result of the program design. The three major areas are:

- ❖ educational planning
- ❖ career guidance in grades 9 through 12
- ❖ assistance with personal situations requiring individualized help

Students will be given information regarding:

- high school course planning to meet college entrance requirements
- opportunities to meet with the college representatives on the high school campus
- testing information (PLAN, CAHSEE, CHSPE, PSAT/NMSQT, SAT Reasoning Test and SAT Subject Tests, EAP, ACT Assessment, and ASVAB)
- financial aid/scholarship information
- assistance with applications, scholarship/admission recommendations
- college information appropriate to individual goals
- Regional Occupational Program: Career preparation and exploration courses
- community college programs
- military service information

Students and parent can expect the following services:

- development of a Personal Learning Plan
- pre-enrollment orientation to include the scheduling process and graduation requirements
- registration, scheduling, program adjustments as needed
- aptitude and achievement testing, and interest inventory assessment
- test results interpretation
- parent conferencing, parent-teacher conference arrangements
- counseling assistance and referral information for special needs
- special grade reports provided upon request
- graduation status reports

General Information

Annual Registration: Students are given the opportunity in the spring of each school year to select courses for the following year. It is important that courses be selected in cooperation with the student's parent, teacher recommendation, high school graduation requirements, career objectives, and the student's "Personal Learning Plan" in mind. *Course selection represents a commitment on the part of the student that he or she will satisfactorily complete the schedule of classes chosen.* Students should check carefully to ensure that they have taken the proper prerequisites for each course selection.

Withdrawal/Removal From a Class: When a student withdraws or is removed from a class after the end of the school day on the fourth Friday of a semester, a "withdraw" F semester grade will be assigned. The grade will be posted on the student's transcript.

Off-Campus Courses: Students who wish to take off-campus courses, with the exception of ROP, for high school credit must have **prior written approval** from their high school principal. Courses which meet district graduation requirements must be taken on a district campus. This regulation covers courses taken during the summer and/or during the regular school year.

Attendance-Minimum School Day: All persons under 18 years of age who have not graduated from high school or passes the California High School Proficiency Exam (CHSPE) are required by state law to attend school. Students in grades 9, 10 and 11 are required to attend six class periods daily. Six periods are required for at least six of the eight semesters to reach the 230 credit graduation requirement. Seniors may be permitted to enroll in five classes with parent and counselor approval if they have sufficient credit. Second semester seniors concurrently enrolled in adult education must be enrolled in six daytime classes at the school of residence. All students must have at least four on-campus classes. Students are expected to attend each of their scheduled classes promptly and regularly. *Regular attendance is one of the greatest contributing factors to success in school.* Absences should be avoided whenever possible.

Prerequisites: A course prerequisite in a prior qualifying condition, education experience, or level of performance which is used to predict the probability of success in the course. It does not in itself determine the probability of success in the course or eligibility for enrollment in a course. Counselors also use standardized test scores, past academic performance, teacher recommendation, and assessed motivation to place students in class commensurate with their abilities, interest, and needs.

Credits: Students receive five units of credit for each semester of course work completed with a passing grade.

Repeated Credit: Any course repeated beyond the maximum credit allowed will not receive additional credit. However, if a student repeats a course to improve his/her grade, credit will be given for the course with the higher grade. Remediation is available for students who receive a grade of D or F in any given class.

State Proficiency Certificate: Legislation provides that persons 16 years old and over may be exempted from compulsory school attendance if they have demonstrated satisfactory proficiency on the California High School Proficiency Examination (CHSPE) as offered by the State Department of Education. A student who passes the examination will receive a "Certificate of Proficiency" and be allowed to terminate secondary schooling with parental consent. **Students should see their counselor for testing information.**

High School Graduation Requirements – Beginning with Class of 2017

Graduation will be authorized by the Board of Education, and a diploma will be granted to all students who have acquired 230 units of credit from the adopted Course of Study during grades 9-12. Beginning with the 2005-06 school year, student completing the 12th grade will be required to successfully pass the **California High School Exit Exam** in English/language arts and mathematics as a condition to receiving a diploma.

Subject	Minimum Required Credits	Details								
English	40	Four years of English or Honors/AP English								
Mathematics	20	Minimum Geometry requirement								
Science	30	Three years of Science, including one year Life Science and one year Physical Science								
Social Science	30	<table style="width: 100%; border: none;"> <tr> <td style="width: 80%;">One year World History</td> <td style="text-align: right;">10 credits</td> </tr> <tr> <td>One year U.S. History and Geography</td> <td style="text-align: right;">10 credits</td> </tr> <tr> <td>One semester American Government</td> <td style="text-align: right;">5 credits</td> </tr> <tr> <td>One semester Economics</td> <td style="text-align: right;">5 credits</td> </tr> </table>	One year World History	10 credits	One year U.S. History and Geography	10 credits	One semester American Government	5 credits	One semester Economics	5 credits
One year World History	10 credits									
One year U.S. History and Geography	10 credits									
One semester American Government	5 credits									
One semester Economics	5 credits									
World Languages and/or Visual Performing Arts and/or Applied Arts	20	Minimum of ten credits in World Languages or Visual/Performing Arts								
Physical Education	20	Unless student has been exempted pursuant to Education Code provisions								
Technology		Requirements will be met through successful completion of middle school. Technology proficiency embedded in the middle school curriculum.								
Electives	70	Will include various classes based on students' interests								
TOTAL	230									

Students identified as “individuals with exceptional needs” shall meet the graduation requirements unless the Individualized Education Program Team determines that the student’s handicaps or disabilities preclude student attainment of the District’s graduation requirements. Commensurate with team diagnosis, a student’s Individualized Education Program will specify the course standards to meet District graduation requirements.

Explanation of Terms and Symbols

- IB** The International Baccalaureate Diploma Program is a rigorous pre-university course of study that meets the needs of highly motivated high school students. The program's core components complement a traditional liberal arts curriculum. Subjects are studied concurrently and students are exposed to the two great traditions of learning—the humanities and the sciences. Grades are computed on a scale A = 5, B = 4, C = 3, D = 0, F = 0.
- AP** The Advanced Placement course is an opportunity to earn college course credit for those students who demonstrate ability, interest, and motivation to prepare and take an advanced placement exam. Grades earned for AP courses are computed on a scale A = 5, B = 4, C = 3, D = 1, F = 0. To enroll for an AP course, students must plan to register to take the AP exam and/or complete an alternative project. Parents, students, and teachers will be asked to sign a contract that clarifies class expectation.
- H** The 5-point weighted grade designation is reserved for all honors courses and courses approved by the University of California for the UC 'a-g' certified course list (<http://www.ucop.edu/agguide/>). A weighted grade is computed on a scale A = 5, B = 4, C = 3, D = 1, F = 0. The University of California/CSU will determine which courses qualify for honors credit. Honors courses may require summer work prior to the class. Parents, students, and teachers will be asked to sign a contract that clarifies class expectations.
- ROP** Regional Occupational Program is a public education service that provides practical, hands-on career preparation, career guidance, and job placement assistance. Priority is given to high school seniors then juniors.
- ELL** English Language Learner Program provides structured classes for English Learners at all proficiency levels. Courses are designated ELD. Student placement is determined by responses to the Home Language Survey and results of the CELDT test.

a. History/Social Science – 2 years required

AMERICAN GOVERNMENT (1800)

PREREQUISITE	<input type="checkbox"/>	SEMESTER COURSE	■	<p>In American Government, students study the origin, nature, and theoretical aspects of the American system of government. Emphasis is on American Political institutions (i.e., Executive, Legislative and Judicial branches of government) from origin to current time. The nature and function of government at the state, county, and city levels are included as time permits. The origin and growth of individual civil and political rights are covered with particular emphasis from concepts of the Declaration of Independence and the Bill of Rights to the U.S. Constitution.</p>

SOCIOLOGY (1808)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	Sociology is an introductory course which provides a comprehensive examination of the basic concepts, principles, and methods central to the scientific study of sociology. Sociology stresses the development of attitudes of critical judgment and respect for the opinions of others and presents a general theoretical and practical study of individuals and group dynamics, involving tensions and conflicts in a social situational relationship. Emphasis is on problem solving and promotion of social values that evolve from the milieu of social diversity in our nation. Existing social structures and institutions are also part of the study. This is a one semester course that is offered in conjunction with Psychology during the alternate semester.

THEORY OF KNOWLEDGE IB (9312)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	A philosophy of learning course, Theory of Knowledge is central to the IB Diploma Program. In this course, distinct forms of knowledge specific to individual subjects are critically evaluated, compared and contrasted, and integrated. Through analyzing concepts, arguments, and the basis of value judgments, the course encourages students to acquire a critical awareness of what they and others know. Theory of Knowledge is a key element in the educational philosophy of the IBO and therefore a mandatory class for every Diploma candidate; the course is also open as an elective to non-Diploma candidates as space allows. The IBO requires two 1500-word essays, one of which is internally assessed and one of which is externally assessed, and a group oral presentation as part of the course work.

b. English – 4 years required

ENGLISH LANGUAGE AND COMPOSITION AP (1243)

PREREQUISITE	■ SEMESTER COURSE	□	English Language and Composition AP engages students in becoming skilled readers of prose written in a variety of rhetorical contexts, and in becoming skilled writers who compose for a variety of purposes. Both their writing and their reading should make students aware of the interactions among a writer's purposes, audience expectations, and subjects, as well as the way genre conventions and the resources of language contribute to effectiveness in writing.
<u>GRADE LEVEL</u>	YEAR COURSE	■	
9	□ UC/CSU APPROVED	■	
10	□ WEIGHTED GRADE	■	
11	□ OFFERED AT FHS/THS	10	
12	■ MAX CREDIT ALLOWED:	□	
			PREREQUISITE: B GRADE OR BETTER IN AP LANGUAGE AND COMPOSITION OR ENGLISH 2 H (BOTH SEMESTERS), AND INSTRUCTOR RECOMMENDATION

ENGLISH LITERATURE AND COMPOSITION AP (1244)

PREREQUISITE	■ SEMESTER COURSE	□	English Literature and Composition AP require careful reading and critical analysis of literature from selected texts drawn from multiple genres, periods, and cultures. The course deepens understanding of ways writers use language to develop meaning. Students consider work's structure, style, themes, figurative language, imagery, symbolism, tone, and social and historical values.

---	---	--	---

c. Mathematics – 3 years required, 4 years recommended

ALGEBRA 2 (1508)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Algebra 2 is designed to extend skills learned in previous mathematics courses. Concepts and skills not presently mastered but needed by the student in future educational, business, and professional endeavors are developed. A more rigorous approach to the real and complex numbers is emphasized. Students will develop a more thorough understanding of relations and functions as well as be introduced to sequence and series, logarithmic and exponential functions and the extension of coordinate geometry to include quadratics and various conic sections.</p> <p>PREREQUISITE: C GRADE OR BETTER IN GEOMETRY (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>
--	--	--	---

ALGEBRA 2/TRIGONOMETRY (1550)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Algebra 2/Trigonometry will serve as the standard third-year math course, following Geometry in the TUSD Common Core math progression. The course will replace Algebra 2. Each of the California Common Core Standards in Algebra 2 will be covered within the course. Algebra 2 standards now include several standards formerly classified as trigonometry. Trigonometry standards will also be embedded within the course to make sure that students have a sound understanding of trigonometry concepts before they take Pre-Calculus, AP Statistics, or Finite Math as a senior. Successful completion of Algebra 2/Trigonometry will qualify a student for the CSU/UC system as well as fulfilling eligibility requirements for NCAA competition. Schools will have the opportunity to offer an honors version of Algebra 2/Trigonometry for those students wishing to take part in either of the two advanced tracks of the TUSD mathematics course progression.</p> <p>PREREQUISITE: C GRADE OR BETTER IN GEOMETRY (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>
--	--	--	--

ALGEBRA 2/TRIGONOMETRY HONORS (1550H)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>WEIGHTED GRADE</p> <p>■ OFFERED AT BHS/FHS</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p>■</p> <p>10</p>	<p>Algebra 2/Trigonometry Honors is designed to strengthen and extend skills learned in previous mathematics courses. This course will help students read, define and apply algebraic vocabulary and symbols, evaluate functions, solve equations involving quadratic, rational, absolute value, radical, exponential, logarithmic and trigonometric expressions, graph equations, functions, and conic relations, write equations and solve word problems. This course will survey topics in advanced algebra including counting, probability, statistics, sequences and series.</p> <p>PREREQUISITE: INSTRUCTOR RECOMMENDATION</p>
--	---	---	--

c. Mathematics – 3 years required, 4 years recommended

APPLIED CALCULUS (1534)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>UC/CSU APPROVED</p> <p><input type="checkbox"/> WEIGHTED GRADE</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Applied Calculus is an introductory, non-AP mathematics course covering the fundamental concepts of Calculus with applications in business, economics, and in the environmental, life, physical, and social sciences. Topics include differentiation and integration of various functions, with emphasis on real-world applications. The prerequisite for this course is the successful completion of Pre-Calculus with a grade of C or better.</p> <p>PREREQUISITE: C GRADE OR BETTER IN PRE-CALCULUS OR IN PRE-CALCULUS HONORS (BOTH SEMESTERS)</p>
--	--	--	--

CALCULUS AB AP (1530)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>UC/CSU APPROVED</p> <p><input type="checkbox"/> WEIGHTED GRADE</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Calculus AB AP is intended for students who have a thorough knowledge of college preparatory mathematics including Algebra 1 and 2, Geometry and Pre-Calculus. Calculus AB is a course in introductory calculus including limits, (Epsilon-Delta concept) differentiation and integration of algebraic and non-algebraic functions and applications. Students will take the advanced placement Calculus AB exam or complete a major project.</p> <p>PREREQUISITE: B GRADE OR BETTER IN PRE-CALCULUS OR C GRADE OR BETTER IN PRE-CALCULUS H (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>
--	--	--	--

CALCULUS BC AP (1531)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>UC/CSU APPROVED</p> <p><input type="checkbox"/> WEIGHTED GRADE</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Calculus BC AP is intended for students who have a solid foundation in Algebra 1 and 2 H, Geometry H, and Pre-Calculus H. Calculus BC is a course which is more extensive in depth and breadth than Calculus AB. Students will take the Calculus BC advanced placement exam or complete a major project.</p> <p>PREREQUISITE: B GRADE OR BETTER IN PRE-CALCULUS H (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>
--	--	--	---

FINITE MATHEMATICS (9025)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>YEAR COURSE</p> <p>UC/CSU APPROVED</p> <p><input type="checkbox"/> WEIGHTED GRADE</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p>	<p>Finite Mathematics is a post Algebra 2 course for students who desire an additional year of mathematics after Algebra 2 or Algebra 2/Trigonometry, or before Pre-Calculus or AP Statistics. Topics covered will include probability and statistics, logic, linear algebra, linear programming, systems of equations, matrices, counting theory, math of finance, and normal distributions.</p> <p>PREREQUISITE: C GRADE OR BETTER IN ALGEBRA 2, ALGEBRA 2/TRIGONOMETRY OR ALGEBRA 2/TRIGONOMETRY H (BOTH SEMESTERS)</p>
--	--	--	--

c. Mathematics – 3 years required, 4 years recommended

GEOMETRY (1506)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>■ YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>■ WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p> <p>10</p> <p>PREREQUISITE: C GRADE OR BETTER IN ALGEBRA 1 OR GEOMETRY CC (BOTH SEMESTERS)</p>	<p>Geometry provides students with an understanding of the basic structure of plane geometry integrated with some solid geometry. This course will help students develop powers of spatial visualization while building the students' knowledge of the relationships among geometric elements. The development of deductive reasoning, as used in geometric proofs and in the appreciation for the need of precision of language, is stressed. Algebraic skills are continued and strengthened. Students are given an insight into the methods of coordinate geometry and the way in which algebra and geometry complement each other.</p>
--	--	--	--

GEOMETRY H (1507)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>■ YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>■ WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p><input type="checkbox"/></p>	<p><input type="checkbox"/></p> <p>■</p> <p>■</p> <p>10</p> <p>10</p> <p>PREREQUISITE: A GRADE IN ALGEBRA 1 (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>	<p>Students completing Algebra 1 with an A grade will normally continue in the Geometry Honors class. The elements of geometry plus the philosophy of enrichment are presented in the Geometry H classes.</p>
--	---	--	---

MATHEMATICS SL IB (9322)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>■ YEAR COURSE</p> <p><input type="checkbox"/> UC/CSU APPROVED</p> <p><input type="checkbox"/> WEIGHTED GRADE</p> <p><input type="checkbox"/> OFFERED AT FHS</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p> <p>10</p> <p>PREREQUISITE: A OR B IN PRE-CALCULUS OR C OR BETTER IN PRE-CALCULUS H (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>	<p>Mathematical SL is designed to provide a background of mathematical thought and reasonable level of technical ability. It is intended to provide a sound mathematical basis for those students planning to pursue further studies in fields such as chemistry, economics, geography and business administration. It is a demanding course containing a variety of mathematical topics. Course work also requires the completion of a project based on mathematical research and calculation.</p>
--	--	--	---

PRE-CALCULUS (1533)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>■ YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>■ WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p><input type="checkbox"/></p> <p>10</p> <p>10</p> <p>PREREQUISITE: C GRADE OR BETTER IN ALGEBRA 2/TRIGONOMETRY OR ALGEBRA 2/TRIGONOMETRY H (BOTH SEMESTERS)</p>	<p>Pre-Calculus is the fourth course in the Algebra 1, Geometry, and Algebra 2 sequence. Topics covered include circular functions, trigonometric functions with applications, reduction of angles, solutions of triangles, identities and equations, complex numbers, matrices, rectangular and polar coordinates, parametric equations, polynomial functions, and conicity.</p>
--	--	--	---

c. Mathematics – 3 years required, 4 years recommended

PRE-CALCULUS H (1529)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p>■ SEMESTER COURSE</p> <p>■ YEAR COURSE</p> <p>■ UC/CSU APPROVED</p> <p>■ WEIGHTED GRADE</p> <p>■</p> <p>■ MAX CREDIT ALLOWED: 10</p> <p>■</p>	<p><input type="checkbox"/></p> <p>■</p> <p>■</p> <p>■</p> <p>10</p>	<p>Pre-Calculus Honors stresses in detail the properties of elementary functions: polynomial, rational, and circular functions. The course extends beyond the traditional with use of the properties of number system, analytic geometry, theory of matrices, polar graphs, vectors, parametric equations, conicity, and elementary calculus.</p> <p>PREREQUISITE: B GRADE OR BETTER IN ALGEBRA 2/TRIGONOMETRY H AND INSTRUCTOR RECOMMENDATION</p>

BIOLOGY (LIFE SCIENCE) (1700)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	<p>Biology is a standards based class based on the study of life. The course deals with basic chemical and physical structures in relation to the functions of the cell. Other related major topics of study include Scientific Method, Genetics, Evolution and Ecology. In this laboratory-oriented course, the application of living and preserved organisms will be utilized as well as a variety of science apparatus such as microscopes, prepared slides, laboratory glassware, and special chemical compounds. Mandated Health requirements are included.</p> <p>PREREQUISITE: CONCURRENT ENROLLMENT IN ALGEBRA I OR HIGHER AND INSTRUCTOR RECOMMENDATION</p>

BIOLOGY AP (LIFE SCIENCE) (1726)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	<p>Biology AP is an enriched biology class based on an investigative approach to the fundamentals of life and its processes. Course content includes investigations of unicellular organisms as well as of the more complex plants and animals. The chemical nature of organisms is researched. Students are expected to spend time on projects and to make periodic oral presentations of their findings. The course is accelerated academically with its content quantitatively and qualitatively different from Biology CP. Students completing the course are expected to take the Biology advanced placement examination as defined by College Board.</p> <p>PREREQUISITE: B GRADE OR BETTER IN BIOLOGY H OR A GRADE IN BIOLOGY (BOTH SEMESTERS) AND INSTRUCTOR RECOMMENDATION</p>

BIOLOGY HIGHER LEVEL IB 2 (LIFE SCIENCE) (9308)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	<p>Biology Higher Level IB prepares students for the IB assessments in experimental sciences. The course work requires an internally assessed scheme of practical/investigative work and a project made up of ten hours of internally assessed practical work. Students will secure knowledge of a limited body of facts and at the same time acquire a general understanding of the subject. The unifying themes of the course are Structure and Function, University versus Diversity, Equilibrium within Systems, and Evolutions. The course may be taken as an elective by non-IB candidates as space allows.</p> <p>PREREQUISITE: B GRADE OR BETTER IN BIOLOGY AP AND INSTRUCTOR RECOMMENDATION</p>

CHEMISTRY (PHYSICAL SCIENCE) (1702)

PREREQUISITE	■ SEMESTER COURSE	<input type="checkbox"/>	Chemistry is a standards-based course that relates the properties of matter to the structure of matter. The ways in which chemicals change and atoms are recombined into new substances are emphasized. Elements and compounds, atomic structure, and chemical bonding are studied in detail. The course includes the study of energy and matter-energy relationships, solution chemistry, the kinetic theory, and the physical states of matter. Lab activities are designed to develop laboratory skills and techniques with an added emphasis on measurement and calculation. The lab experience enriches the understanding of basic concepts and stimulates interest and enthusiasm for chemistry. The goal of the course is threefold: to prepare students for success in college chemistry, to increase scientific literacy in the field of chemistry, and to make chemistry relevant so that students will better understand their world.

LATIN 1 (1421)

PREREQUISITE	<input type="checkbox"/> SEMESTER COURSE	<input type="checkbox"/>	Latin 1 teaches skills for reading, listening, speaking, and understanding the Latin language and literature. A student becomes acquainted with the roots of his own language, builds an English vocabulary of his own, and is exposed to the rhetoric and literary skills of the Greeks and Romans who fashioned our civilization. Ancient people, laws, customs, and folk-tales will be studied through translations, reports, and the use of multimedia such as tapes, records, slides, films, transparencies, and overlays.

Digital Filmmaking is the second course in a three-course digital media arts pathway at each TUSD high school. Students learn advanced editing, audio, and motion graphic techniques. Students continue to work in teams, produce rich video communications, focus on effective composition and communication, project management, design specifications, and iterative development. They produce scripts, project plans, treatments, storyboards, and presentations to plan and communicate ideas and themes for videos and then use assembly and rough cuts to visualize and review with clients, teachers, and fellow students. Students are exposed to a variety of filmmaking and digital media related industries by exploring filmmaking through several formats including short films, movies, television production, news broadcasting, and documentaries. Students complete a digital portfolio that includes their aspirations, goals, and interests in the area of filmmaking. Students leave this course with the requisite skill set for an entry-level career in the arts, media, and entertainment industry as well as a portfolio that will assist with admissions into post-secondary institutions.

INDEPENDENT FILM PROJECTS (1372)

PREREQUISITE	<input checked="" type="checkbox"/>	SEMESTER COURSE	<input type="checkbox"/>	<p>Independent Film Projects is a year-long, advanced-level, Career Technical Education (CTE) elective course that meets the UC “g” requirement for admission into the UC system and builds on students’ artistic design and writing skills by focusing on a variety of video production projects. These advanced film projects include documentaries, narratives, commercials, and music videos. The course is intended for students planning to pursue a career or post-secondary major in film and video production. Major historical and cultural trends in world cinematic history are covered through lecture and discussion. Students will also research historical/cultural trends and make presentations to the class based on their findings and interpretations. An in-depth study of camera movement and expression, lighting techniques and aesthetics, and editing techniques is followed by critical analysis and study of master works of film. Students enrolled in the Independent Film Projects class are expected to produce a short film for entry into the Southern California Student Film Festival.</p> <p>PREREQUISITE: B GRADE OR BETTER IN ENGLISH OR DRAMA OR INSTRUCTOR RECOMMENDATION</p>

DIGITAL FILMMAKING (1371)

<p>PREREQUISITE</p> <p>GRADE LEVEL</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p>	<p><input checked="" type="checkbox"/> SEMESTER COURSE</p> <p><input checked="" type="checkbox"/> YEAR COURSE</p> <p><input checked="" type="checkbox"/> UC/CSU APPROVED</p> <p><input checked="" type="checkbox"/> WEIGHTED GRADE</p> <p><input checked="" type="checkbox"/> OFFERED AT BHS/THS</p> <p><input checked="" type="checkbox"/> MAX CREDIT ALLOWED: 10</p> <p><input checked="" type="checkbox"/></p>	<p><input type="checkbox"/></p> <p><input checked="" type="checkbox"/></p> <p><input checked="" type="checkbox"/></p> <p><input checked="" type="checkbox"/></p> <p>10</p>	<p>Digital Filmmaking is a year-long Career Technical Education (CTE) elective course that meets the UC "a-g" requirements (in the "g" area) and builds on students' artistic design and development skills by focusing on larger video production projects, including documentary and narrative filmmaking. Digital Filmmaking is the second course in a three-course digital media arts pathway at each TUSD high school. Students learn advanced editing, audio, and motion graphic techniques. Students continue to work in teams, produce rich video communications, focus on effective composition and communication, project management, design specifications, and iterative development. They produce scripts, project plans, treatments, storyboards, and presentations to plan and communicate ideas and themes for videos and then use assembly and rough cuts to visualize and review with clients, teachers, and fellow students. Students are exposed to a variety of filmmaking and digital media related industries by exploring filmmaking through several formats including short films, movies, television production, news broadcasting, and documentaries. Students complete a digital portfolio that includes their aspirations, goals, and interests in the area of filmmaking. Students leave this course with the requisite skill set for an entry-level career in the arts, media, and entertainment industry as well as a portfolio that will assist with admissions into post-secondary institutions.</p> <p>PREREQUISITE: INSTRUCTOR RECOMMENDATION</p>

Regional Occupational Program (ROP)

The Coastline Regional Occupational Program (ROP) provides practical, hands-on career preparation, career guidance, and job placement assistance to high school students (and adults). Students who are at least 16 years of age or in their junior or senior year of high school may enroll in courses.

Whether a student plans to go on to a university, college, or directly into the workforce, effective job skills and experience are an asset. ROP courses may give students an edge in obtaining entrance into a variety of occupational settings and/or related college/university majors. Examples of the value of the ROP experience for a university/college-bound student may be evidenced in a variety of ways, i.e., letters of recommendation from professionals in the field, employability in a career-related area during the university/college years, experience to make appropriate career decisions, etc. Please see your ROP Career Specialist in the Career Center for additional information and a current list of courses offered. *UC/CSU approved ROP courses.

International Baccalaureate Program

The International Baccalaureate Diploma Program is a rigorous pre-university course of study that meets the needs of highly motivated high school students. The program's core components complement a traditional liberal arts curriculum. Subjects are studied concurrently and students are exposed to the two great traditions of learning—the humanities and the sciences. Designed as a comprehensive two-year curriculum, the diploma model is based on the pattern of no single country but incorporates the best elements of several.

In addition to the course listed below, IB Diploma Candidates must complete a 4000-word research paper (Extended Essay) and 150 hours of performance, activity, and service (CAS). These requirements reflect the IB emphasis on the development of the student as a whole person.

Sample Course Sequence for IB Diploma Candidate:

<p><u>Grade 9</u> English 1 H World Language Level 1 or 2 World History H Biology H Algebra 2/Trig or H or Geometry H Visual & Performing Arts (Optional) P.E. or Athletics</p>	<p><u>Grade 10</u> English 2 H World Language Level 2 or 3 European History AP Chemistry H Pre-Calculus or H or Algebra 2/Trig or H Visual & Performing Arts (if not satisfied in 9th grade) P.E. or Athletics</p>
<p><u>Grade 11</u> English HL 1 Foreign Language Level 3 or 4 (Student has option to take the IB SL Foreign Language test on Level 4) U.S. History AP Biology AP Calculus AB or BC / Pre-Calculus/Honors Theory or Knowledge IB (evening class two days a week during second semester) IB Elective: Advanced Theater Arts SL 1, Visual Arts SL, Psychology AP/SL</p>	<p><u>Grade 12</u> English HL 2 Foreign Language Level 4 or 5 (Student may take Level 5 even if IB test is taken in grade 11) History of the Americas HL 2 Biology HL 2 Math SL Theory of Knowledge IB (evening class two days a week during first semester) IB Elective: Theater Arts SL (year 2), Visual Arts SL / HL 2. Psychology AP/SL (if not satisfied in grade 11)</p>

NOTES:

Prior to graduation, all students must complete 5 units of an Applied Arts course (Class of 2015 only).

It is preferable to leave the summers prior to grades 11 and 12 open for travel, Extended Essay research and CAS requirements. The 0 period in grades 9-12 allows students a 7-period day.

Model United Nations Program

The Model United Nations Program is a rigorous four-year course of study that encompasses Global Issues, Model UN II, Model UN III, and Model UN IV courses. Model United Nations is a program that combines the aforementioned subject matter with an authentic simulation of United Nations Committees. During these simulations students are catapulted into the world of diplomacy and negotiations. They prepare draft resolutions, plot strategy, negotiate with supporters and adversaries, resolve conflicts and navigate the U.N.'s rules of procedure – all in the interest of mobilizing “international cooperation” to resolve problems that affect almost every country on earth.

Lessons in Model UN courses will be designed to promote an understanding of modern world problems through the use of a Model United Nations format. Knowledge will be reinforced through research, debates, critical thinking, speech, and actual Model United Nations competition.

In addition to the courses listed below, MUN students must attend a minimum of four conferences each year. These conferences are usually held on Saturdays and Sundays. Placement in the program is by teacher recommendation.

Suggested Sample Course Sequence for 4-year MUN students:

<p><u>Grade 9*</u> Model UN I English Math Science World Language P.E. or Athletics Additional Elective (if desired)</p>	<p><u>Grade 10*</u> Model UN II World History AP or CP English Math Science World Language P.E. or Athletics</p>
<p><u>Grade 11*</u> Model UN III U.S. History AP or CP English AP or CP Math Science World Language Visual & Performing Arts</p>	<p><u>Grade 12*</u> Model UN IV American Government & Politics / Economics AP or CP English AP or CP Math Science Additional Elective (if desired)</p>

*An honors track program is recommended but not required for Model United Nations. MUN is open to all students.

NOTES:

Summer Project for entering freshman: Current Event Notebook

Prior to graduation, all students must meet the District's graduation requirements.

Special Program

RESOURCE SPECIALIST PROGRAM

The Resource Specialist Program is available for students with identified learning needs who require specialized instruction for 50% or less of the school day. Students are assisted in any academic areas which need remediation as well as study skills and tutorial assistance as determined by a current Individualized Educational Program (IEP).

SPECIAL DAY CLASS PROGRAM

Special Day Classes are provided for non-severely handicapped and severely handicapped students.

The Special Day Classes for the non-severely handicapped provide for students identified with communicative and learning difficulties who require 50% or more of their school day in special classes. Students are instructed in basic skills, communication, and/or academic subjects with emphasis on individualized instruction. When it is determined to be in their best interest, students are mainstreamed into regular classes.

The Special Day Classes for the severely handicapped provide for students identified with severe cognitive and emotional difficulties who need a smaller, structured environment for learning. Students are instructed in basic skills and/or academic subjects with emphasis on individualized instruction. When it is determined to be in their best interest, students are mainstreamed into regular classes.
